教學風格和目標

學習原本就是一件好玩又有趣的事情, 學中文更是! 在我的課堂上, 小朋友會做各式各樣的活動, 譬如說, 遊戲, 運動, 手工, 故事, 影片, 念課文, 寫字, 和畫畫。這些不同活動可以讓他們訓練聽力, 講話能力, 跟認識許多漢字與筆順。在每堂課裡面不一樣的活動中, 每個小朋友都能找到適合自己或擅長的活動, 從動手做/參與活動的樂趣中學習中文, 更能鼓勵小朋友去體驗新的活動與挑戰自己。這些正面的經驗, 能讓小朋友在未來遇到不認識的字詞的和不懂的句子, 他們有自信的擁抱新的東西, 主動學習。

Teaching Methods and Goals

Learning should be fun and interesting through the usage of different activities such as games, hand crafts, stories, videos, reading, and drawing. In addition, to encourage to approach learning with an open mind. Through these different activities incorporated into the classroom it can appeal to a range of children with different skill levels. It is important to have a variety of activities, one activity may not cater to all kids at the same time, because each child has different knowledge level, with a different learning pace. It's important to make adjustments. Every child will be able to explore to find a fun and motivating aspect for themselves though these different methods. These activities will help to build their listening, reading, and writing skills step-by-step so they will not feel overwhelmed when presented with new information.
